## Your Deposits Are Safe

You've probably heard about the recent bank failures in the news. Rest assured knowing that Market USA remains stronger than ever.

- Market USA is extremely well capitalized - much higher than most other credit unions and banks in the United States. In ranking, we are in the top 8%.<sup>1</sup>
- Market USA has very few low rate long term investments (less than 2.7% of capital)
- Market USA is one of the safest financial institutions in the country
- Deposits are federally insured by the National Credit Union Administration (NCUA) up to \$250,000 per type of account ownership. Visit [MyCreditUnion.gov/share-insurance](http://MyCreditUnion.gov/share-insurance) for more information. If you have over \$250,000 on deposit with us, contact us to see if different account titling can be used to increase your coverage (like adding a different beneficiary or joint owner).

## April is National Credit Union Youth Month

Parents have the important role of teaching their children life skills that will enable them to thrive as adults. One important skill is to learn how to manage money well. Practicing this skill early will help children through the inevitable financial ups and downs common in adulthood. Opening a savings account for your child gives them a great opportunity to begin their training.

Every April, credit unions across the country focus on educating youth about financial health. This year's theme, "Unleash the Power of Saving at a Credit Union™," encourages kids to take care of their "pet" savings account and watch how powerful it can be.

Please join us to celebrate Youth Month this April and help your child "unleash" the power of saving! Call **301-586-3400** or stop by a branch to open a youth savings account today!
